

# **US - NEW YORK - TWU Local 100 Executive Board Votes to End Strike (TWU Local 100)**

Thursday 22 December 2005, posted by [John Malone](#)

*Dec. 22- [TWU Local 100](#) - The first NYC system-wide transit strike in 25 years ended today. Local 100 had to walk out to stop the TA's 11<sup>th</sup> hour pension ambush. We walked out strong, and we walk back stronger.*

Thousands of transit workers have been on freezing cold picket lines around the clock for three days. The vote of the TWU Local 100 Executive Board to overwhelmingly accept the recommendation of the New York State Mediators means we will now start reporting to work.

In the face of an unprecedented media assault, the average New Yorker supported the TWU and blamed the MTA for the strike. Our riders knew we did not abandon them, and they did not abandon us. Public support from unions, communities, clergy and elected officials helped create the atmosphere for an end to the strike.

The details will be coming to all transit workers very soon.

Every TWU member should be proud that our Union stood up for justice.

Stay United! Stay Strong!
